Time

Par 120 Minds

Album : The Polymath

Past is sorrow

End it today

Fear waits tomorrow

Stay awake

Can't be lost in uncertainty

Beware disharmony

Take your time!

Nothing's really dead

Future is modified past

Thoughts are limited

I know, my friend

Don't be hasty

Things come in time

Don't be lazy

Feel deep inside

Indolence putrefies the mind

Knowledge ends

Now you become wise

Take your time

Time to take

This road to you

Check your mind

Mind is blown away

Through and through

Leave behind

Behind the door

There's something new

Redefine

Find a place

To overview

Take your time!

Nothing's really dead

Future is modified past

Thoughts are limited

I know, my friend

Take your time!
