06 Daisy Cutter

Par 311

Album : Uplifter

I tried to move with a cool hand

It didn't go as I planned

I'm full of rookie maneuvers,

And gestures meant to be grand

I pull the bag of tricks one after the other

I asked if you heard of my band

So misguided

The sincere approach, never tried it once

You said to just drop the game flat

Why didn't I think of that?

My daisy, make me go crazy

Forever amaze me, now let's let the day go lazy

My daisy, know what I'm after

Your musical laughter, a more beautiful disaster

I can't believe what you create

When you let your heart detonate

You let your mind go with one blast then another

And what comes next, I will await, mhmm

Tell me again the one about the time

We first got together and you blew my mind

I find my mind in the gutter

When I think of my daisy cutter

My daisy, make me go crazy

Forever amaze me, now let's let the day go lazy

My daisy, know what I'm after

The musical laughter, a more beautiful disaster

It's four months now, since you crashed into my life (to my life)

You leave a path of delightful destruction

You're quite the bomb,

My daisy

Just clap your hands

Get down to the beat

Just clap your hands, just clap your hands to the beat

Daisy, make me go crazy

Forever amaze me, now let's let the day go lazy

My daisy, know what I'm after

The musical laughter, a more beautiful disaster

My daisy

You know just what I'm after,

You make my heart beat so much faster

My daisy

You know you drive me crazy,

You just blow me away, my daisy
