Irreversible Crisis

Par Aborym

Album : Dirty

You know what? Fuck you! Let's play this fucking game!

Doomsday befalls. Hell rages on the face of the Earth

Will humanity correct decades of lies, hoaxes and failures

or is it the last light before darkness?

Things are getting out of control

Lost cause situations

propaganda controls

Global crisis, knocking at your door

Scream if you want to

the sky is going to crush you

Rights stripped into nonexistence

politicians don't care

Ultraviolet radiations

collapsing banks

They want you to swim in their toxic waste

A black mist and sickening fog of lies

(this world want to fuck you!)

Disasters ruled by bloodshed

This world want to fuck you!

to disrupt the fucking empire

This world want to fuck you!

to forge an underground

This world want to fuck you!

to engage the fucking enemy

This world want to fuck you!

We create two, three, many Vietnams

This world want to fuck you!

Desanctification of the empire

This world want to fuck you!

Look down at me and you see a fool

This world want to fuck you!

Look up at me and you see a God

This world want to fuck you!

Look straight at me and you see yourself

Too much pain to keep up the fight

No faith to believe there's time

Everything is built on slavery, domination and death

A joyride to the gates of hell

This world want to fuck you!

This world want to fuck you!

This world want to fuck you!

Turning weakness into strength

This world want to fuck you!

The war to explain the war

This world want to fuck you!
