Ladybug

Par Agents Of Oblivion

Album : Agents Of Oblivion Uncut

lady bug, lady bug, lady bug

kisses the bones pushing thru

everybody here seems to be in their head but me

twitching, twistin

beyond alone

spiritless and out of context

ultra-violet beam

everybody's eyes seem to ooze from their faces

the sun sets in reverse

the devil's gonna dream when he gets home of the ants upon the bones

germs on public telephones

lady bug, lady bug

kisses the bones pushing thru

swaying with this wicked city

twisting and turning with you

everybodys eyes seem to ooze from their faces

the sun sets in reverse

lady bug, lady bug

kisses the bones pushing thru

swaying with this wicked city

twisting and turning with you

the devils gonna dream when he gets home of the ants upon the bones

germs on public telephones

lady bug, lady bug, lady bug

kisses the bones pushing thru
