Hey sister, won't you come to me tonight?

To switch off my machine

To blow off my light

Hey sister, what is your deal?

Did we ever had a choice

Was the suffering for real?

Hey sister, how do you feel?

Fifty-five dead and hundreds more to kill

Hey sister, won't you kill me tonight?

Switch off my machine and blow off my light

You Call Us Out

The Angel Of The Light

You Bring Death In The Middle Of The Night

You Spread Fear, You're The Devil's Nurse

They Got No Choice You will Spread Your Curse

You'll Become The Angel Of Death

You'll Become The Angel Of Death

The Angel Of Death
