# Call an Ambulance

Par Albert Hammond, Jr.

*Album : Yours to Keep*

Once I was told that a boy caught a cold  
And he left to go home to get some sleep instead  
Well his baby stayed where she was  
I go talk to her cause I wanna sleep with her

**And you would only hold me**

**If I would never tell you it would end**

**And you would never have me**

**Cause you were only wanting to be friends**

**And you would always hold out**

Till he gave out

Now that he's back I'm afraid

You'll go back to his bed where I know he'll try to keep you

Well I'm well aware of what she does

She won't leave me because I sleep with her

**And you would only hold me**

**If I would never tell you it would end**

**And you would never have me**

**Cause you were only wanting to be friends**

**And you would always hold out**

Till you gave out
