The Secret

Par Altar de Fey

Album : The Insatiable Desire... For More

It showed me a secret

Showed me the secret I wanted to know

That I wanted to know

All that lies ahead and gone before

Anyone can foresee it

Everyone foresees it and recalls

And recalls

All that lies behind and before

Exponentially increasing

Exponentially increasing

Ever more

Forevermore

For evermore

Forevermore

Challenging me not to be astonished

Astonished

Challenging me not to be astonished

Astonished, oh

Infinity that was

Infinity to come

Ever more

Forevermore

Forevermore

Forevermore

Fractalating molecule

From which all is derived and is returning to

It is, is a divining rod

Like a God

Challenging me not to be astonished

Astonished

Challenging me not to be astonished

Astonished

Challenging me not to be astonished

Astonished

Challenging me not to be astonished

Astonished, oh

It showed me a secret

Showed me a secret

It showed me a secret

Showed me a secret

Exponentially increasing

Exponentially increasing

Evermore, evermore, evermore

Like a God

Like a God
