### wondrous life

Par Alto Key

*Album : wondrous life*

That was when I knew I was so in love

We owned these rainy streets

Hands held tight under stars above

Running 'round this London town

Feeling like two kids right now

Electric sparks fly as we're glowing

We're glowing

We're dreaming and chasing

This young blood still racing

Through heartbeats whenever we touch

**And as my life is flashing by**

**You colour each and every high**

**What a wondrous life I've had**

**With yours in mine**

That was when I knew I had found the one

Every brawl and waterfall

With you, they're all overcome

Tiny flat with the nine to five

Got no cash but we'll survive

Tears a-flood, but we're still floating

We're floating

Through hardships, we're flying

I'll never stop trying

For you, I'll be more than I am

**And as my life is flashing by**

**You colour each and every high**

**What a wondrous life I've had**

**With yours in mine**

**With yours in mine**

When this party's over

Would you dance with me?

See the stars in your eyes

There's millions of colours

And we're shining bright

As we light up the skies

As my life is flashing by

**You colour each and every high**

**What a wondrous life I've had**

**With yours in mine**

**With yours in mine**

Woo-oo-oo-oo

**What a wondrous life I've had**

**What a wondrous life I've had**

**What a wondrous life I've had**

**With yours in mine**
