Cold Blooded Creatures (feat. Bryson Tiller)

Par AlunaGeorge

Album : *Champagne Eyes*

No loving, no graces, I'm not gonna lie

I just want your body, covering bases

You want the same thing

No feelings left, they're lost, they're riddled

We just sit inside the cold

We're not in a movie, that's not what we do

There's nothing to lose, we're not tryna prove things

That's not how we do this

If you wanna tell me that I'm the one

Just say it with the tip of your tongue

I'm not saying that we're out of hope forever, oh

I'm not saying that we're never gonna find love

But tonight don't act like we're not cold blooded creatures

Can't teach us to act right

Don't speak like we got more nights in store

I'm not yours and you're not mine

Why can't we show how else I get freaky, get nasty and kill time?

Don't act like what we do is beneath us

Don't act like we're not cold blooded creatures

Yeah, you bring me down

So anymore you wanna place on me now

Weigh me down (yeah)

If you want it, say that I'm the one

Just say it with the tip of your tongue

I'm not saying that we're out of hope forever, oh, oh, oh

I'm not saying that we're never gonna find love

But tonight don't act like we're not cold blooded creatures

Can't teach us to act right

Don't speak like we got more nights in store

I'm not yours and you're not mine

Why can't we show how else I get freaky, get nasty and kill time?

Don't act like what we do is beneath us

Don't act like we're not cold blooded creatures

A storm with the nice and quiet flag

But we'll meet again if our stars are aligned

But tonight don't act like we're not cold blooded creatures

Can't teach us to act right

Don't speak like we got more nights in store

I'm not yours and you're not mine

Why can't we show how else I get freaky, get nasty and kill time?

Don't act like what do is beneath us

Don't act like we're not cold blooded creatures
