Par Always

Album : Always

How do I get close to you?

Even if you don't notice

As I admire you on the subway

When it's dark outside your house

You won't let anybody out

And keep a padlock on your door

Well, one more cocktail

And I'm on your trail

If I should fall

Act as though it never happened

I will retreat

And sit inside so very quietly

How do I grow old with you?

Even if you don't notice

As I pass by you on the sidewalk

When it's dark outside your house

You won't let anybody out

You're keeping a dead girl in the closet

One more cocktail

Is it a good time?

Or is it highly inappropriate?

If I should fall

Act as though it never happened

I will retreat

And then go back to university

If I should fall

Act as though it never happened

I will retreat

And sit inside so very quietly

I won't waste a (moment)

I won't waste a (moment)

I won't waste a

If I should fall

Act as though it never happened

I will retreat

And sit inside so very quietly

If I should fall

Act as though it never happened

I will retreat

And then go back to university
