### Sick of Food

Par American Music Club

*Album : Fluxblog 1991 Survey*

**I'm sick of food**

**So why am I so hungry**

I was sick of you

But I don't mind seeing your little face

I was sick of love

So I just stopped feeling

But I couldn't find anything

To take its place

What'll I do with my time?

I'm sick of drink

So why am I so thirsty

I must have been born

On the planet Mercury

**I just called to ask you**

What I said last night

**I just called to ask you**

What I did last night

So what'll I do with my time?

**Now I wake up**

And I don't have any gravity

**Now I wake up**

**Still walking in my sleep**

**Now I wake up**

Feel the world drawing away from me

And now I wake up

**Still walking in my sleep**

**I'm sick of food**

**So why am I so hungry**

I'm sick of feeling

The world draw away from me

And now I wake up, yeah, I remember

Feel the whole world draw away from me

Now I wake up what good is it

Another bright nothing, another day
