Something's up

Par Amotti

Album : Something's up

Tell me if you feel it now

Tell me that you saw it coming

Tell me how you really felt

And if my love to you was nothing

Tell me that my heart's allowed

It's allowed to feel something

Tell me what's inside your head

Cause I can tell that something's up

And lately I've been feeling stuck

Lately, I just wanna run

The absence of my happiness

My skin and bones are numb

And I still bite hard

Both my lips have scars

Would you tell me for real

If you think about us?

Tell me if you feel it now

Tell me that you saw it coming

Tell me how you really felt

And if my love to you was nothing

Tell me that my heart's allowed

It's allowed to feel something

Tell me what's inside your head

Cause I can tell that something's up

Tell me if you feel it now

Tell me that you saw it coming

Tell me how you really felt

And if my love to you was nothing

Tell me that my heart's allowed

It's allowed to feel something

Tell me what's inside your head

Cause I can tell that something's up
