Mulholland Drive

Par Angelo Badalamenti

Album : Mulholland Dr. (Original Motion Picture Soundtrack)

Drive Drive it home right now

Drive it home know how

Take it from the heart

You gotta tear yourself apart

From hell... sinking hell

Like disease where I dwell

Burning kidneys where I roam

Never taking you back home

Let it out ride tonight

Drive Drive it home right now

Drive it home know how

Told you from the start

Tear your fucking heart apart

Drive me home right now

Drive it home right now

Take from my heart

Take me from my heart

Ground, turning ground burn it down burn it down

Crucify my nation Crucify the population

Time dollar sings my crime is my time

The dotted line try to find where you gonna hide

From my eyes from my mind

Into my children's faces... their faces

Stay away! Goddamn it Stay Away! never come back

Disintigrate, Decision and the popular creation

Let it out, let it out

So he lied and you lied and that bitch she knows she'd gonna die

Keep it hiding, deep inside, she lied to swallow her pride

That bitch knows where it goes, Down incineration

Incinerate My Mind

Incinerate My Nation

Punishment? Exiled. Punishment? Exiled.

Watch it fall.Watch it fall.Watch it fall...

Ride tonight

Drive Drive it home right now

Drive it home know how

Take me from the heart

You gotta tear yourself apart

Drive it home right now

Drive it home right now

Tear your fuckin' world apart

Drive it home right now

Drive it home right now

Take it from the heart

Take it form the heart
