# Annihilator [Bonus]

Par Annihilator

*Album : Schizo Deluxe*

The storm is coming closer

Spreading out, infecting like disease, like a disease

All life below

Is crushed under the power of machine

Annihilator, annihilator

(This machine)

Annihilator, annihilator

(This machine, rumble)

Lighting rips the sky at night

His power paints the city blood red, blood red

Nowhere to run, nowhere to hide

Don't look behind 'cause you're dead

**Annihilator, annihilator**

(You're dead)

**Annihilator, annihilator**

(Now you're dead)

You're trapped alone

Filled with fear

There's no one to help you

**The storm is coming closer**

**Spreading out, infecting like disease, like a disease**

**All life below**

**Is crushed under the power of machine**

**Annihilator, annihilator**

**(This machine)**

**Annihilator, annihilator**

**(This machine, rumble)**

**Annihilator, annihilator**

**Annihilator, annihilator**

**Annihilator, annihilator**
