Deathrider

Par Anthrax

Album : Fistful of Metal

Riding hard, high in the saddle
Winged steed of unwearing flight
Sweeping through air just like fire
Swift of the foot, great of might

Hear the screams

Feel the bite

We ride with death

Tonight

Conquering all, spreading terror
Hoofs gallop in thunderous pound
Devouring the souls of the wretched
Trampling them down to the ground

Hear the screams

Feel the bite

We ride with death

Tonight

Here it comes

You better hide

Shoot the guns

You're gonna die

Gripping the reins of destruction

Made of steel on his hands

Holder of forces immortal

Slaughtering all in his path

Hear the screams

Feel the bite

We ride with death

Tonight
