Show Me a Smile

Par APO Hiking Society

Album : The Best of APO Hiking Society

Show me your smile, and then kiss me

Tell me you love me again

Come to my room, and then lie in my bed

I love you, you know, although sometimes it just doesn't show

Giving is my way of loving

It's the only way that I know

I've got nothing much, I've got nothing to show

I love you, you know, although sometimes it just doesn't seem so

Love me forever

Love me all night through

Love me for a lifetime

I live my life for only you

I love you, you know, although sometimes it just doesn't seem so

Love me forever

Love me all night through

Love me for a lifetime

I live my life for only you

Show me your smile, and then kiss me

Tell me you love me again

Come to my room, and then lie in my bed

I love you, you know, although sometimes it just doesn't seem so
