# Until The End Of The World

Par Apoptygma Berzerk

Album : <http://www.ngw-trance.de.vu/>

I'll wait for you until the end of the world

All the weights that keep me down

Seem heavier than before

Fate hits me in my face

Though you feel nothing

Only time will heal you say

Your words, my therapy

But half of me is gone

My dearest treasure torn away

**I'll stick with you until the end of the world**

**I cry out loud but you hear nothing**

**I'll wait for you until the end of the world**

**My dearest treasure torn away**

**All the weights that keep me down**

**Seem heavier than before**

**Fate hits me in my face**

**Though you feel nothing**

**Only time will heal you say**

Your word's my therapy

**But half of me is gone**

**My dearest treasure torn away**

**I'll stick with you until the end of the world**

**I cry out loud but you hear nothing**

**I'll wait for you until the end of the world**

**My dearest treasure torn away**

**I'll wait for you until the end of the world**

**I'll stick with you until the end of the world**

**I cry out loud but you hear nothing**

**I'll wait for you until the end of the world**

Half of me is gone

**My dearest treasure torn away**

**I'll stick with you until the end of the world**

**I cry out loud but you hear nothing**

**I'll wait for you until the end of the world**

**My dearest treasure torn away**
