Witnessed

Par Approaching Nirvana

Album : Press Start

Moonlit travels, proving to time you can haggle.

Midnight battles, losing your mind in the saddle.

Witness hands full, knew it by heart as it was told.

Sleepless and cool fooling the darks and the ice cold.

Darks and the ice cold.

Darks and the ice cold.

Cast iron siren see it all keep within.

Asphalt silence bring you back from what you've been.

Witness hands full knew it by heart as it was told.

Sleepless and cool fooling the darks and the ice cold.

Darks and the ice cold.

Darks.

Darks and the ice cold.
