I know I'm not the only flower you see

But what can I do, you are a good-looking bee

Wham bam, thank you ma'am

Oh, bumble bee, bump into me

I am in for pollination

Bumble bee, take what you see

I'm in need for your donation

I can't wait for your invasion

Be my love

'Cause I'm a single flower feeling free

Blooming now

Take me honey, be my favorite bee

**Hey Rose, I'm ready again**

**I got my radar tuned in on you, baby**

**I'm all set and ready to land**

**I'm the bomb, here I come**

**Getting ready for a wham bam**

**Bumble bee, bump into me**

**I am in for pollination**

**Bumble bee, take what you see**

**I'm in need for your donation**

**You don't need no invitation**

**Wham bam, thank you ma'am**

**I'm going wham bam, thank you ma'am**

**I'm a true believer, that goes for what I see**

And one little flower is not enough for a bee like me

All I know

Is you're my honey, and I can't say no

Just a little bit shy

And so excited when I see you fly

**Hey Rose, I'm ready again**

**I got my radar tuned in on you, baby**

**I'm all set and ready to land**

**I'm the bomb, here I come**

**Getting ready for a wham bam**

**Bumble bee, bump into me**

**I am in for pollination**

**Bumble bee, take what you see**

**I'm in need for your donation**

**You don't need no invitation**

**Wham bam, thank you ma'am**

**I'm going wham bam, thank you ma'am**

**I'm a true believer, that goes for what I see**

**And one little flower is not enough for a bee**

No, one little flower is not enough for a bee like me

**I know I'm not the only flower you see**

**But what can I do, you are a good-looking bee**

Honey, it's a job, it's a dream come true

You're my favorite flower when I'm intimate with you

**Wham bam, thank you ma'am**

**I'm going wham bam, thank you ma'am**

**I'm going wham bam, thank you ma'am**

**I'm a true believer, that goes for what I see**

**And one little flower is not enough for a bee**

Going wham bam, thank you ma'am

**I'm going wham bam, thank you ma'am**

**I'm a true believer, that goes for what I see**

And you, my flower, ain't enough for me

You gotta be faithful, it's not fair for a bee

You gotta be faithful, it's not fair for a bee like me
