# Unscarred Within

Par Ari Koivunen

*Album : Becoming*

From the womb to the grave

Is a short trip after all

So it better be a good one

Unlike you

I won't just sit around and waste my life

No, I'm going for the home run

**Each night and day**

**I wonder what more lies up ahead**

**Destined to win**

**I reach for the world to fulfill my desires**

**Unscarred within**

**I keep reaching higher and higher**

**Determined to never be still**

Blood and sweat

Mark the road that I have walked

Never taking a sidestep

All the filth

That buries and consumes our precious world

Never weakened my mindset

**Each night and day**

**I wonder what more lies up ahead**

**Destined to win**

**I reach for the world to fulfill my desires**

**Unscarred within**

**I keep reaching higher and higher**

**Determined to never be still**
