# Passenger Seat

Par Arkells

*Album : Morning Report (Deluxe Edition)*

We called it a party  
Even though everybody was sad  
We showed up with some coffee  
Started movin' at 7am  
You were havin' trouble sleepin'  
I was having trouble keepin' still  
When we talk it's like a meeting  
Full of budgets and utility bills  
Drivin' on the highway home

**This time alone doesn't mean the same without you**

**I turned on the radio to somethin' slow just to let it fuck with my mood**

**And songs don't sound the same**

**Without you in the passenger seat**

## Without you in the passenger seat

We made a deal when we started

And we knew it would take some work

Everyday was like a party

And livin' life with no concern

I remember the feeling

Of driving to my parents' place

I lean on in to kiss you

See the gap-toothed smile on your face

Driving on the highway home

**This time alone doesn't mean the same without you**

**I turned on the radio to somethin' slow just to let it fuck with my mood**

**And songs don't sound the same**

**Without you in the passenger seat**

**Without you**

You and I always laughed at the system

I don't wanna be just another statistic we said those things

All those years ago

I read some things I shouldn't have seen

And you look like you've given up trying

You think I don't care when you walk in the room

Katie just tell me now what can I do

And Driving on a highway home

**This time alone doesn't mean the same without you**

**I turned on the radio to somethin' slow just to let it fuck with my mood**

When the road starts to bend, and the signal ends, and all the static's coming through

I think about the things you said

They all go in my head, I'm alone 'cause I know it's true

**And songs don't sound the same**

**Without you in the passenger seat**

**Without you**

In the passenger seat
