Favorite Sound

Par ARTY feat. XIRA

Album : Take So Long (Find You)

I've been tryna say it, make it clear to you for so long

Did I stutter? Trip on my words?

Holding on 'cause maybe one more time it could be just enough

Did I stutter? Stu-stu-stutter?

Not missing out, oh not anymore

Not missing out, oh not anymore (oh)

Not missing out, oh not anymore

Taking back the seconds I lost

Taking back the wasted nights along the way

You were what I wanted the most

But nothing's gonna stop me now

Playing my favorite sound

Nothing's gonna stop me now

Nothing's gonna stop me now

'cause nothing's gonna stop me now

Nothing's gonna stop me now

Nothing's gonna stop me now

Nothing's gonna stop me now

Nothing's gonna stop me now

Playing my favorite sound

Nothing's gonna stop me now

Nothing's gonna stop me now

Nothing's gonna stop me now

Stop me now, stop me now

Stop me now, gonna stop me now

Stop me now, stop me now

Stop me now (taking back the wasted nights)

You were what I wanted the most

But nothing's gonna stop me now

Playing my favorite sound

Nothing's gonna stop me now

Nothing's gonna stop me now

'cause nothing's gonna stop

Nothing's gonna stop

Nothing's gonna stop me now

Playing my favorite sound

Nothing's gonna stop me now

Nothing's gonna stop me now

Nothing's gonna stop me now

Stop me now, stop me now

Stop me now, gonna stop me now

Stop me now, stop me now

Stop me now (taking back the wasted nights)
