If I am yo girl I cannot be a groupie

Boy don't keep on treating me like I am stupid

Say that you are busy, but I know you is not

Bought myself a ticket, it didn't cost a lot

Had to get that shit refunded, I'm not playing

Just because you fly me out don't mean we dating

Boy I know this pussy good, so what you saying

Take forever just to fuck me, then just lay in it

Wait a minute

Wait a minute

I ain't wit it

I ain't wit it

Nah

Wait a minute

Wait a minute

I ain't wit it

I ain't wit it

Nah

I ain't with the bullshit

Gassing you online but texting you, you ain't shit

At least you motivate me boo

Making sure my bank account lookin better than you

Cause everything I say I do, I do

Yo' actions don't match up with yo words Periodt Pooh

So what you tryna do

Buy me a house in Texas, but can't text back I'm confused

Every time I call you never answer

But every time you call I always answer

My friends keep talking shit but you my man so

Fuck I look like doing this again though

This ain't something that I even asked fo'

You saw me at ya show and brought me back so

I really should've left out of the front doe

You really could've left me in the front row

But I knew what I was doing at yo' show

So I guess we both to blame on the low

But Imma let you have it all instead

How you my boyfriend but ain't never gave me head

Wait a minute

Wait a minute

I ain't wit' it

I ain't wit' it

Nah

Wait a minute

Wait a minute

I ain't wit' it

I ain't wit' it

Nah

If you are my dude then you can't be with groupies

Boy stop playin you know ya the one that's stupid

Say that I need you to lay, I got my own spot

Copped a place in LA it didn't cost a lot

Had my fun without your funds, you must crazy

Got me thinking I'm your lady cuz you call me baby

Treat me like yo side piece you gon get this 5 piece

Stole yo flow on 'Nephew' and they made you they niece

Wait a minute, wait minute

I put my men on film, they hated it

Live 'In Living Color', like the Wayan Brothers

Cuz "Homie Don't Play That",

I'm that motherfucker

Wait a minute, wait minute

Wait a minute, wait minute

Wait a minute, wait minute

Wait a minute, wait minute
