Emmett: Radiatin' Light

Par Baroness

Album : Gold

When I go out

Will you find me?

Where I'm supposed to be

Is no longer a place for me

If I go out

Will you find me?

'Cause where I'm supposed to be

Is no longer a place for me

If you go out

I will find you

'Cause where you're supposed to be

Is no longer a place for me

This blood upon my hands

Bruises on my knees

Don't belong to me

I'm in a shower

Of radiating light

But not where I belong

If I walk in

Will you find me?

Is where I wanna be

When I go out

Will you find me?

Is where I wanna be
