Mas Plata (feat. Real Slummy)

Par BashfortheWorld

Album : Migo In America

Ayy migo it's gon' take a whole lot more than just putting some lil' shit together
Who I trust in this world, nigga no one but me, I'm the one that put this shit together
Migo down, keep a P, nigga won't keep a bitch to hold me down, no we can't live together
Ayy migo used to board up the windows when shit got colder
My OG was a real ass hustler but still came home most times not sober

I went and turned to the man of the house, had to bring home the bread when a nigga got older
The first migo wanna play with us, nigga shoot up this bitch, now the whole shit over
I used to scale up the grams in the bathroom and bag up the shit then put racks in the sofa
Migo ballin' and hopped the Rover, used to be broke niggas hopped out the whoopy
Swinging my door, all you hearing is Boosie, I walked out the spot with my Glock wearing Gucci

Got my first gun when you listen to Uzi, you pulling shit out then you best better use it
The first thing I went and did when I went and got the whip, had to bend the corner with my brother
I'm turnt up, bitch, nigga just crashed the whip, man this shit ain't nothing, I just got another
Migo I pour up the drank in the pot, nigga crush up the perk and I watch it change colors
How the fuck niggas switch up on the gang, it's something wrong with the game if we came out the gutter

Money talk, migo, I been gettin' pape', if you ain't gettin' nothing then go get some

You ain't never walked in the club with no bread in your pockets, you broke then it ain't no fun

You hustle all day and it ain't no funds

My Glock hold 10 and my drac' hold 50

You ain't talkin' money then bitch don't hit me

I walk in the club, got the whole hood with me

Migo stuck in the box yellin' outcome get me, ayy

Pero así, poco a poco tienes que salir adelante

Tienes que salir adelante y tienes que aprender

A ver qué cuero usar el más por leas

Porque el que tiene el primer fracaso tira dos veces también

Y así es la vida, hay que estar abusado

Hay que estar listo para lo que venga

Migo, migo, güera

Yeah, yeah

When I say dolly, that clip gon' empty

You ain't getting rich if you ain't a lil' risky

It ain't just on me, lil' bitch, it's in me

Two things I won't do is go broke or settle

Plug know what I do so he sending the extra

I keep all watches, my time is precious

I ain't saying nada but they get the message

City gettin' hot, go to sleep with a weapon

A drank by my side, I stream all reckless

It's too much money for folks to be jealous

They all want your spot but can't handle the pressure

All of this migo shit, we the influence

Lil' Mexico beat up this pot but this fast money tricky

They told me just still do producing

You know a quicker way out, then let's do it

Wake up then hustle, I read that's your label

Can't pick up no calls unless it's 'bout paper

I'm in the hood in a Benz rockin' shit you ain't heard of overseas where all garments was layered

I'm getting money but still misbehaving, it's too bad I ain't put some away

My partner been itching to put some away

Mask up on a lick, they don't know who to blame, uhh

Money drills, it pays for peace, I'm twisted, but this lifestyle's filthy

And when you this lit you don't care who the littest, 'cause that shit be bad for business

OGs look up to me and it's mutual respect, since a youngin' I handled shit different

You do as I say and then everyone safe, boy you better step to that rhythm

Cartier frames, it cost just to look at me, nigga, so watch when you stare

Mommy, you know it's a shoebox right under the mattress in case I get thrown in that cell

Just like my granny we said it, don't say none but, baby, don't ask me nothing about trap

Real-life boss, I really won't sign to no label, I'd go rather sign to myself
