# Baby You're Mine

Par Basia

*Album : London, Warsaw, Ny*

Sitting there and feeling lonely

Had my blue eyes for you only

Suddenly you turned around and smiled at me

It wasn't my imagination

Had no doubts, no hesitation

When it comes to love, I know where I wanna be

Is it real?

Am I dreaming?

I've been waiting light years for someone like you

Can't believe you are here with me

Got the best and I can't hide it anymore

**I want the world to know that**

**Baby, you're mine**

**You are blowing my mind**

**We are two of a kind**

**Baby, you're really mine**

Now I see what I've been missing

It's the happiest girl you're kissing

Baby, only you can make me feel like this

Is it real? (you, you, you)

Am I dreaming? (you, you, you, you)

(Baby, you) I've been waiting light years for someone like you (you, you, you, you, you, baby, you)

Can't believe (you, you, you, you, you, you)

You are here with me (you, you, you, you are here)

I've got the best and I can't hide it anymore (with me)

**I want the world to know that**

**Baby, you're mine**

**You are blowing my mind**

**We are two of a kind**

**Baby, you're really mine**

**Baby, you're mine**

**You are blowing my mind**

**We are two of a kind**

**Baby, you're really mine**

Still can't believe you are here with me

I've got you and I can't hide it anymore

**I want the world to know that**

**Baby, you're mine**

**You are blowing my mind**

**We are two of a kind**

Baby, you're really mine (mine)

**Baby, you're mine**

**You are blowing my mind**

**We are two of a kind**

**Baby, you're really mine**
