Close To You

Par Behind The Scenes

Album : Fragment[ed]

Another painful day, another restless sleep

the fires of desire, I've tried to catch your eye

I remember many faces, but all I want is you

don't play with my heart, don't play with fire

Don't behave so childish

I want more than a friendship

many sleepless moments since the day I've found you

can't describe my feelings, the moment when you danced with me

try to fight all reasons

at night I feel so close

Another painful day, another restless sleep

I know that I will wait for you until the end of time

Don't behave so childish

I want more than a friendship

many sleepless moments since the day I've found you

yearning is a hurting, suffering when she holds him

can't describe my feelings

at night I feel so close

So close to you ...
