It Must Be A Dream

Par Bim Sherman

Album : Bim Sherman Meet Horace Andy and U Black In a Rub a Dub Style

Oh yeah

Can someone

Who you don't love like someone

Can someone

Who you don't need like someone

Take you away

From the one you love so madly

From the one you need so badly

I have to say

It is a miracle

I have to wake up out of my dream

I have to wake up out of my dream

It must be

This must be

It must be

This must be a dream

It must be

This must be

It must be

This must be a dream

I have to wake up out of my dream

I have to wake up out of my dream

I have to wake up out of my dream

I have to wake up out of my dream

Oh yeah

I just don't know how

It's happened to me

It's only heaven

Can tell me

I just don't know how

It's happened to me

It's like I'm all wide awake

In a dream

Too much in a dream

I have to wake up out of my dream

Have to wake up out of my dream

It must be

This must be

It must be

This must be a dream

It must be

This must be

It must be

This must be a dream

Can someone

Who you don't love like someone

Can someone

Who you don't need like someone

Take you away

From the one you love so madly

From the one you need so badly
