Black Heart

Par BLOODBOUND

Album : Book Of The Dead

Forever lost inside memories of the past

Together you and I a dream that never last

Black angels by my side whispering my name

Please follow us to hell and take you from the pain

You'll never be sad again goodbye my friend

Reach your hands up to the sky

Hold your spirit high

Black heart to the grave

Now it's time to die

Black heart fade away

So dark and cold I feel destiny prevail

Into the shadow land my soul has set it's sail

Black angels by my side whispering my name

Please follow us to hell before you go insane

You'll never be sad again goodbye my friend

Reach your hands up to the sky

Hold your spirit high

Black heart to the grave

Now it's time to die

Black heart fade away

Hold your spirit high

Black heart to the grave

Now it's time to die

Black heart fade away
