10 Am?A?Do

Par Bob Marley & The Wailers

Album : Natty Dread

Am a do, ooh

You got to pay your dues ooh

I'm do you baby oh

And I'm a do you too ooh (one more time)

You got to pay your dues

And I'm a do you

(Hey woman)

You've got your love

And I've got mine

And then we put them together

Cause they gonna work so fine

Still ya bap a woman I got you on my mind

And I've get it with you again, now woman

And I've got to do it with you again, got to say

(Do it with your bad self) Come on home today

(Do it with your bad self) I wanna do it with my bad self

(Do it with your bad self) Are you tellin' me to do it

(Do it with your bad self) Thank you woman

Cause every man needs a woman

Every woman, every woman needs her man

Closer together they would be

Sharing a world so free

And though we're far apart

You're still in my...

Still ya bap you're in the bottom of my heart

And I've got to do it with you again

Say I've got to do it with you again, oh

(Do it with your bad self) Thank you baby

(Do it with your bad self) Say woman

(Do it with your bad self) Gibe me in the mood

(Do it with your bad self) Let me feel rude

Every man needs a woman

Every woman, needs her man, oh

Closer together they would be

Sharing a world so free

And though we're far apart

You're still in my

Still ya bap you're in the middle of my heart

And I've got to do it with you again

Say I've got to do it with you again, tell me

(Do it with your bad self) Invite me home

(Do it with your bad self) Oh baby

(Do it with your bad self) Hey I wanna

(Do it with your bad self) Do it with your bad self

(Do it with your bad self) Hey baby

(Do it with your bad self) That's nice of you to tell me

(Do it with your bad self) Do it with my bad self
