I Hate You More Than I Hate Myself

Par Bobaflex

Album : Chemical Valley - EP

I remember on the day I signed

You were talking on the TV screen

Before I knew that all you told was lies

I didn't know that you were dragging me

Dang amour

My time spent in the desert seemed to warp my mind

Now you're the one that I despise

I hate you more than I hate myself

'Cuz you're the one who

Marched us all straight into hell

And we're never coming back

God knows, we cried, for everyone who died

God knows, we tried, still asking ourselves why

I don't know what we were fighting for
But I know that they don't want us here
I don't think I like this world no more
I got the feeling it's been dragging me

Dang amour

My time spent in the desert seem to warp my mind

Now you're the one that I despise

I hate you more than I hate myself

'Cuz you're the one who

Marched us all straight into hell

And we're never coming back

God knows, we cried, for everyone who died

God knows, we tried, still asking ourselves why

Don't care (don't care anymore), don't care (don't care anymore)

Don't care (don't care anymore), don't care (don't care anymore)

I don't care (don't care anymore), I don't care (don't care anymore)

I don't care (don't care anymore), I don't care (don't care anymore)

I don't care anymore!

I hate you more than I hate myself

'Cuz you're the one who

Marched us all straight into hell

And we're never coming back

God knows, we cried, for everyone who died

God knows, we tried, still asking ourselves why

Still asking ourselves why
