What Is This

Par Bobby Womack

Album : Move On Up

What is this? Oh yeah

What is this? Somebody tell me

Yeah, what is this now? I like it

What is this? Look

What is this thing that's got a hold on me?

What is this feeling that won't let me be?

Even with my problems I can sleep at night

'Cause it let's me know everything's gonna be alright

It's gotta be the love of my baby, yeah

It's gotta be the love of my baby, yeah

Hey

What is this? Come on

What is this? Oh

What is this? Somebody tell me

What is this? Ah, look up

Without this feeling, what would life be?

It would mean nothing at all to me

Even with my problems I can sleep at night

'Cause it let's me know everything's gonna be alright

It's got to be the love of my baby

It's got to be the love of my baby

Oh, oh yeah, woah what a feeling

This thing keeps me rockin' and a-reelin'

What is this? Somebody tell me

What is this? Now

What is this?

I can walk with my head up high

This thing called love keeps me alive

If you got it you'll understand

Why I keep parling out over this land

I keep on asking you

It's got to be the love of my baby

It's got to be the love of my baby

She got some walk, she got in my talk
