Next Best Thing

Par BoyWithUke

Album : BoyWithUke: B Sides

The show is over, you can go pack up and leave

But lean a little closer, I can show you what I see

We shouldn't be together, wasn't meant to be

You always made me feel lonely

Whoa, oh

We could've had it all

Now I don't even know you

Whoa, oh

We could've had it all

Don't say I never told you

The grass was always greener, thought she was a keeper

Told me pretty lies, can't believe that I believed her

Met her in a bathroom, knew that she was bad news

Now she's running back to

The next best thing

The next best thing

You weren't ever happy, never satisfied

Dreamin' up another situation in your mind

Now I've realized, the best thing about this

Is, I don't have to spend another night around your bullshit

Whoa, oh

We could've had it all

Now I don't even know you

Whoa, oh

We could've had it all

Don't say I never told you

The grass was always greener, thought she was a keeper

Told me pretty lies, can't believe that I believed her

Met her in a bathroom, knew that she was bad news

Now she's running back to

The next best thing

The next best thing
