# Dream On Dreamer

Par Brand New Heavies

*Album : Ministry of Sound - Smooth Grooves*

**Dream on dreamer life gets in your way**

**Dream on dreamer life gets in your way**

There you go day and night

Up in the clouds flying so high

You try your best to stretch your mind

Beyond reality and sense and rhyme

You see things that make your big heart sing

Like the flowers, trees and birds and pretty things

Hate, to put your two feet on the ground

You like to step aside

Then you release yourself and fly

**Dream on dreamer life gets in your way**

**If the life you live is a spinning top of pain then you can**

**Dream on dreamer life gets in your way**

**If you live to learn you'll be lucky one day**

Now, the paisley pages of your mind  
Are so complete like seeing colours black and white  
Do you realize that you look so spaced out  
You've made your peace with the need to be free  
Without a doubt  
Yeah, I frown 'cause something don't look right  
It's the twinkly twinkle star that's in your eyes  
Hate to put your two feet on the ground  
So go on and step aside  
And release yourself and fly

**Dream on dreamer life gets in your way**

**If the life you live is a spinning top of pain then you can**

**Dream on dreamer life gets in your way**

**If you live to learn you'll be lucky one day**

You know you gotta

**Dream on dreamer life gets in your way**

**If the life you live is a spinning top of pain then you can**

Dream on dreamer life gets in your way

If you live to learn you'll be lucky one day

Over, over, over and over

Over, over, over and over

Over, over, over and over

Over, over, over and over
