Early Mornin'

Par Britney Spears

Album : In the Zone [Import Bonus Track]

Early mornin'

All right, I was out real late last night

Got a little messy

(Early morning)

Can't be like that anymore, no

I was shaking my ass in the streets, I'm wrong

And just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

Passed out on the couch, I'm yawning

Just walked in and it's early morning

(Passed out again)

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

Met a tall dude, kind of dark hair

When he walked up, somebody grabbed him

But, I liked him, told him "Come here"

"Kind of cool, baby we can make plans"

"Where you live? Do your mama live there?"

"Or we could up at the hotel"

He was down, so I told him "Let's go"

What happened next? Guess what? You don't want to know

I was shaking my ass in the streets, I'm wrong

And just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

Passed out on the couch, I'm yawning

Just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

I went out with my girl Jen

And we called up Gabe and his friends

They was talking 'bout hitting up a show

So I said, "What the hell? Let's go"

Got up and got on the dance floor

Hooked up with a guy named Joe

When the music was fast, danced slow

What happened next? Guess what? You don't want to know

I was shaking my ass in the streets, I'm wrong

And just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

Passed out on the couch, I'm yawning

Just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

(Call all your boys)

Call all your boys

(Call all your girls)

Call all your girls

(Call all your friends)

Call all your friends

(Let's do it again)

Let's do it again, let's do it again

Shoo-wop, shoo-wop! Yes

(Can't, can't, can't keep doing this)

Shoo-wop, shoo-wop! Yes

(Can't, can't, can't keep doing this)

I light your fire, your one desire

Pull on me, baby and I'll take you higher

(I want to get with you)

You should try her, so come over here and let's go

So, oh

I was shaking my ass in the streets, I'm wrong

And just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

Passed out on the couch, I'm yawning

Just walked in and it's early morning

Bump-bump 'til the break of dawn

And it don't stop 'til the early morning

(Call all your boys)

Call all your boys

(Call all your girls)

Call all your girls

(Call all your friends)

Call all your friends

(Let's do it again)

Let's do it again, let's do it a-

Early morning

Early morning
