Son Of Odin

Par Brothers Of Metal

Album : Prophecy Of Ragnarok (Japan 2020)

I am the son of Odin

I bring Lightning from the sky

With my hammer Mjölmir

I was born to die

Brother of deception

Leaves me with no choice

I want to scream my heart out

But I have lost my voice

Thursday bears my name

Shameless I'm still the same

All Father of wind and rain

Thunder I am your bane

I believe in honour

And life is made of steel

Loki is my brother, he has no sex appeal

Fire blood and magic

Leaves my with a thirst

I want to ride to battle

But I have lost my horse

Thursday bears my name

Shameless I'm still the same

All Father of wind and rain

Thunder I am your bane

Our warriors, we come riding from beyond

Oh the bravest few we look for you

who are worthy of hearing our song

We will carry every broken heart and bone

Fall asleep and by Odin be reborn

Thursday bears my name

Shameless i'm still the same

All Father of wind and rain

Thunder I am your bane
