# Machine Men

Par Bruce Dickinson

*Album : The Chemical Wedding*

Bring the toys out for the boys

Let the children make their noise

See the monsters in their metal cages

Turn the lights down in your soul

Cut the power to your heart

See the carcass in its dying rages

**Machine men - cannibals of rust**

**Machine men - iron bites the dust**

**Machine men - build with feet of clay**

**I'm coming to sweep you all away**

What bitter vampire made you this

Gave you life with its badly kiss

Ground you limbs to bloody stew

Made a new machine of you

Turn the nightmare into day

Suck your breath, take your life away

Beating harder trough your veins

Someone else's cold remains

**Machine men - cannibals of rust**

**Machine men - iron bites the dust**

**Machine men - build with feet of clay**

**I'm coming to sweep you all away**

**They're coming to sweep you all away**

**Machine men - cannibals of rust**

**Machine men - iron bites the dust**

**Machine men - build with feet of clay**

**I'm coming to take you all away**

**Machine men - cannibals of rust**

**Machine men - iron bites the dust**

**Machine men - build with feet of clay**

**I'm coming to take you all away**

**They're coming to sweep you all away**

Away...

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**

**Iron in the soul**
