The People That We Love

Par Bush

Album : Golden State

Speed kills, coming down the mountain

Speed kills, coming down the street

Speed kills with presence of mind

Speed kills, if you know what I mean

Got to feel, woke up inside again

Got to feel, less broke, more fixed

Got to feel when I got outside myself

Got to feel when I touched your lips

The things we do to the people that we love

The way we break if there's something we can't take

Destroy the world that we took so long to make

We expect her gone for some time

I wish her safe from harm

Till you find yourself in a foreign land

Another refugee, outsider refugee

How's it feel, she's coming up roses

How's it feel, she's coming up sweet

How's it feel when it's all in spite of you

How's it feel when she's out of your reach

The things we do to the people that we love

The way we break if there's something in the way

Destroy the world that we took so long to make

We expect her gone for some time

I wish her safe from harm

Till you find yourself in a foreign land

Another refugee, outsider refugee

What happened to you

What happened to you

What happened to you

What happened to you

What happened to you

What happened to you

The things we do to the people that we love

The things we do to the people that we love

The things we do to the people that we love

The things we do to the people that we

That we love
