# Hold On

Par Candice Pillay

*Album : The Mood Kill*

Love ain't shit motherfucker can't pay the bills

Baby while we're holdin on maybe we should let it go

Love ain't shit motherfucker can't pay the bills

Baby while we're holdin on maybe we should let it go

How long can you stay til you're gone til you're go again

Cause you aint i adore in your house in your bed frame

Youre always leavin home, youre always goin some place

And I'm always alone wish you just wish you would just hold on eh

wish youd just hold on

youre wrong but i stay through it all for you always

should i stand in your grave watch you fall watch you go again

you always fuck around you always send the wrong place

im always alone i wish youd just hold on

i wish youd just hold on wich you just i wish youd just hold on

wish you just hold wish you hold
