Put Them to Death

Par Cannibal Corpse

Album : 15 Year Killing Spree (Disc 3)

Evil people with evil minds

Slaughter their victims with ripping knives

They should be caught and put to death

Strapped to the chair, they should die there

Evil people with evil minds

Slaughter their victims with ripping knives

They should be caught and put to death

Strapped to the chair, they should die there

Blood spewing from their eyes

As you hear their sinful cries

Destroy their evil minds

We should take their fucking lives

They should be caught and punished

For what they have done

Torture them slowly it would be fun

Kill them all off one by one

Let them go - no torture them slow

Fuck you - and your kind

We don't need you, or your lives

Execute by injection

Execution by electricution

Fuck you - and your kind

We don't need you, or your lives

Execute by injection

Execution by electricution

Evil people with evil minds

Slaughter their victims with ripping knives

They should be caught and put to death

Strapped to the chair, they should die there
