# Can't Stop The Rain

Par Cascada

*Album : Everytime We Touch (Premium Edition)*

How, how am I supposed to feel  
When everything surrounding me  
Is nothing but a fake disguise

I don't know  
I don't where I belong  
It's time for me to carry on  
And say... good bye

**I can't stop the rain from falling**

**I'm drowning in these tears I cry**

**Since you left without a warning**

**I faced the dawn with sleepless nights**

**No I can't go on**

**When clouds are pushin down on me boy**

**I can't stop, I can't stop the rain... from**

Fallin

So, tell me where I went wrong

I'm stuck inside a dream all gone

It's hard to reveal the truth

You're love

It's nothing but a bitter taste

It's better if I walk away, away from you

**I can't stop the rain from falling**

**I'm drowning in these tears I cry**

**Since you left without a warning**

**I faced the dawn with sleepless nights**

**No I can't go on**

**When clouds are pushin down on me boy**

**I can't stop, I can't stop the rain... from**

Fallin'
