Mama, if you think that I don't

He might steal your car

Mama, if you think that I don't

He might steal your car

I promise I will believe

Anything you are telling me

I promise I will believe

Anything you are telling me

Motionless on the floor

How could I close the door?

Motionless on the floor

How could I close the door?

I promise I will believe

Anything you are telling me

I promise I will believe

Anything you are telling me
