Hot and Bothered

Par Cinderella

Album : Cinderella Essentials

Hollywood, how you doin' tonight, alright?

Lemme see your hands one time

Get 'em up for me

Oh, yeah

Now put 'em together people, come on

Whoo, alright

Check it out

You got me jumpin' right out of my skin

You keep it up, and I'll be comin' on in

You start a feelin', you're the cream of the crop

You're gonna break my heart or just make it stop

You told me that you'd always love me true

But then I heard you told some other guy too

Take a cold shower, the water boils hot

The way you twist and shake it, girl

You tie me in a knot and get me hot

Ooh, hot and bothered

So hot and bothered

You get me hot and bothered

I pick you up at eight, by ten we do the town

Empty my pockets, just a tryin' to get you down

Throw in the towel, I think your games are such a bore

When I think I've lost, you pull me to the floor and get me hot

Ooh, hot and bothered

So hot and bothered

You get me hot and bothered

So hot and bothered

Whoo, oh yeah

Ooh, you get me hot, yeah

Hot and bothered, yeah

So hot and bothered

Baby, get me hot

Hot and bothered

So hot and bothered

You get me hot and bothered

So hot and bothered

Hot and bothered

Hot and bothered

Hot and bothered

You people feel like singin' a little bit tonight?

I said, y'all feel like singin' tonight?

Let me hear you one time

We all need, c'mon, a little shelter

Just a little helper

Ooh, and it'll be alright, yeah
