...

Despite Disbelief

A love as big as a risk

It fills you up

And you can't look down

...

The breath of God in my mouth

A love i can taste

God, get some paste

He and I, breath to breath

...

Closer than i've ever

Healed through your love

I cant stop hungering for the worst

...

I forgot the use

My head fell out of the sky

And crashed into my palms

Jesus God valentine

...

Love

On the tip of it

You look nervous like you're wanting sweet sex

So seek

You are a woman just as you are a man

...

Creeping hungers

Is it magical like

Like a flight, a clouded peak

But I was choking on the blood

It camouflages like a song

Whose missing fire as her soul

...

Kneeling by the harm

Which is promising a link

Whose poor essence, only the truth

mud and hearth all unto itself

I stick my heels and slug you in

To send Lucifer into Hell

Love

on the tip of it

You look nervous like you're wanting sweet sex

So seek

You are a woman just as you are a man

...

Love

On the tip of it

You look nervous like you're wanting sweet sex

So seek

You are a woman just as you are a man

Love

On the tip of it

You look nervous like you're wanting sweet sex

So seek

You are a woman just as you are a man
