# Barely Real

Par Codeine

*Album : Fluxblog 1992 Survey*

Don't you have to speak now?

Not just look and half smile

All I want's to feel

That I'm barely real

**I feel like string**

**I feel like nothing**

Who's the silence for now?

Can your heart still hold

Everything...

Untold?

**I feel like string**

**I feel like nothing**
