Animals

Par Coldplay

Album : Clocks (CD Maxi-Single) UK

Animals we are

Disposable, collapsible and raw

In you go into some crowded room

And animals that climb

And they're climbing over you until you say

Off you go, off you go

Animal I am

And I'm looking for an answer just like you

But I should know which way to turn

An animal that runs

And I ran away from you because I'm scared

Now off you go, off you go

But if you're gonna go, go now

But if you're gonna go, go now

I forgot to tell you how

So if you're gonna go

Go now

Animal you are

Disposable, defenceless yes and

Watch your mouth, boys watch your mouth

An animal that runs

And I made all my excuses to you

And I missed my chance by a stone's throw

And if you're gonna go, go now

If you're gonna go, go now

I forgot to tell you how

So if you're gonna go

Go now

Go now

Go now

Go now

And I crumble

Crumble and fall

Crumble and fall like an animal

I crumble

Crumble and fall

Crumble and fall like an animal

Yes, I crumble

Crumble and fall

Crumble and fall like an animal

Yes, I crumble

Crumble and fall

Crumble and fall like an animal
