Just To Be Close To You

Par Commodores

Album : Commodores - Hot On The Tracks

Just to be close to you girl

Just for a moment, well for just an hour

Just to be close to you girl

Oh well, ah baby ooh

Oh, you know I've been through so many changes

In my life girl

Oh, I've been up real high

Where I thought I didn't need anybody

Oh, and then again I've been down

Real low where there was no one

In my life who needed me

Oh, I found that material things

I thought had so much value

Oh girl didn't have any value at all

That I was a lonely man

A man with no direction

With no purpose with no one

To love and no one to love me for me

Oh, girl then you came

Then you came into my life

You made my jagged edges smooth

You made my direction so clear

And you woman became my purpose

My reason for living girl

You see you're my heart

You're my soul, You're my strong inspiration baby

Oh, that's why I'm standin here singing

And opening my arms to you

I wanna say child why don't you

Take my hand ah, we'll live in love forever yeah

Take my hand ooh, we'll be alone

You and me yeah

Take my hand girl

We'll live our lives together yeah

Together (together) yeah together

Just to be close to you girl

Just for a moment, well just for an hour

Just to be close to you girl (hey ooh)

I've been out there searching so very long baby

Searchin' to find somebody just like you

And for some folks it takes a lifetime sugar

To find this world a dream come true

Why don't you

Take my hand

Oh we live in love forever (yeah)

Take my hand girl, we'll be alone you and me

Take my hand we'll spend our lives together

(Together together together)

Together, together

Just to be close to you girl

Just for the moment(just for the moment)

Just for the hour

I need you baby

To make love to be loved by you baby

To have your warm body close to mine

To whisper words that make you feel like a woman

Girl, I know our love will stand the test of time

Just to be close to you

For the moment baby, for the moment baby

For the moment baby

For the sugar, sugar, yeah, yeah, yeah, yeah

Yeah, yeah, yeah

Ooh yeah, yeah, yeah, yeah, yeah, yeah, yeah

Yeah, yeah, yeah, yeah

Hey girl I wanna say

Closer and closer girl please hold me closer

My arms are still burning

Girl, you got me yearning for your love

Yeah yeah yeah yeah yeah yeah yeah
