When the Links Becomes Missing

Par Control Denied

Album : The Fragile Art Of Existence [2008, MASS CD 1124 DG]

A tool to do good has gone bad

Electric altar for a new religion

A new way to link

A new way to think

Individual thoughts

That have come missing

Laugh at my words, you fool

They will soon become living truth

Look at yourself in the mirror

Reflection is living proof

What will they do

When the link they live becomes missing?

Will they survive?

When the link they breathe becomes missing

When we see the face of evil

It will be the demon reality

A new way to link

A new way to think

Individual thoughts

That have come missing

Laugh at my words, you fool

They will soon become living truth

Look at yourself in the mirror

Reflection is living proof

What will they do

When the link they live becomes missing?

Will they survive?
