Glastonbury Revisited

Par Cosmic Rough Riders

Album : Deliverance

Glastonbury evening sun

From where have all the angels come

We could hear an angel's choir

As we sang 'round an evening fire

A yellow moon lit up the sky

And left me happy enough to cry

Glastonbury we got high

As Heaven's rain clouds passed us by

Where have all the angels gone

Now that all the acid's done?

We made love under the sun

We're back to nature on the farm

We were higher than the sky

As Heaven's rain clouds passed us by

We could hear an angels choir

I swear, we couldn't get no higher

Where have all the angels gone

Now that all the acid's done?

It's raining love on, everyone

Who knows where we will go

At the end of this rainbow

Glastonbury's golden sun

Will shine its love on everyone

Where have all the angels gone

Now that all the acid's done?

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun

We made love under the sun
