Too Blind to See

Par Cuby + Blizzards

Album : Too Blind to See

I had a good girl

But the woman was too blind to see

Yeah, good girl

But the woman, she's too blind to see

We've been a long time together

But now she's no longer with me

She left me deep down in sorrow

Make me feel like a lonely drop of rain

She left me deep down in sorrow

Make me feel like a lonely drop of rain

I gave her all the good things I had

But everything seems to be in vain

Now that I spend my life without her

People I feel just like I wanna cry

Now that I spend my life without her

People I, I feel, feel just like I wanna cry

You know I was still burning

You know it's burning deep down inside
